When we say that our clothing is "created by squash players, for squash players" we're not kidding. We love squash. And that's why we're here. We've watched the game change and grow over the last couple of years and marvelled at how the clothing didn't keep up. Not sure about you, but we retired our sleeveless v-neck sweaters ages ago:)

OUR GOAL IS SIMPLE: Revolutionize the game by creating clothing exclusively for squash players while contributing to the squash community that we are a part of.
